**2011 CHEM SHOW Announces Presentation Schedule  
For The New Product Technology Theater**

*11 Sessions Will Address A Variety of Technologies*

**WESTPORT, Connecticut...October 11, 2011**– The CHEM SHOW has released the schedule of presentations that will take place in the New Product Technology Theater during North America’s leading chemical process industries exposition and conference November 1-3 in New York City.

Eleven insightful presentations covering such critical topics as ‘Explosion Protection Solutions’ and ‘Field Wireless Solutions’ to ‘Dewatering & Drying Techniques’ will be offered by leading industry suppliers during the first two days of the Show. Each of the companies will have 15 minutes to share their latest technologies and solutions with chemical processing attendees from around the world.

The New Product Technology Theater Schedule:

**Tuesday, November 1**

11:00 am	Optimizing Your Vacuum & Chilled Water Systems	Artisan Industries Inc.
11:30 am	Field Wireless Solutions	Yokogawa Corp. of America
1:00 pm	PROTEGO Conservation Vent Design Technology and Application Advantages for Reduced Liquid Storage Tank Emissions	PROTEGO® USA Inc.
1:30 pm	Explosion Protection Solutions	Fike Corporation

## Wednesday, November 2

11:30 am	Best Practices in Nitrogen Blanketing for Safety and Quality	Air Products and Chemicals, Inc.
12:00 pm	Dawn of Non Metallic Mag Drive Pumps	Anticorrosive Equipment Pvt. Ltd.
1:00 pm	Hydrogen: Innovative Solutions	Air Products and Chemicals, Inc.
1:30 pm	Dewatering & Drying Technologies	Heinkel Filtering Systems, Inc.
2:00 pm	Hose Assemblies... The Weak-link or Stronger Than Steel?	Smart-Hose™ Technologies
2:00 pm	Innovative 'ONE-BLOCK' Design Gives Flotronic Market Edge	Flotronic Pumps Limited
3:00 pm	Intrinsically Safe Cell Phone and Wireless Headset	ecom instruments inc

“The New Product Technology Theater is a popular and valuable feature of the Show because it provides attendees with a sneak preview of innovative technologies and solutions they can use for specific applications at their facilities,” said Clay Stevens, President of International Exposition Company, which produces and manages the CHEM SHOW.”

Widely recognized as the number one CPI event in North America, the CHEM SHOW has been the leading information resource for CPI professionals since 1915. The CHEM SHOW is an interactive experience that showcases a variety of the latest emerging technologies with a concentration on such key processing areas as:

- Process Control and Automation Solutions
- Optimizing Process Efficiency
- Water/Wastewater Treatment
- Emerging Technologies
- Saving Energy/Sustainability

In addition to the activity on the Show Floor, The American Institute of Chemical Engineers (AIChE) has developed a comprehensive, solutions-focused conference program. The multi-faceted, three-day program will address a wide range of critical industry topics ranging from such new developments as nanotechnology to technical sessions on powder and bulk processing. This event is known as “AIChE’s Northeast

Regional Conference at the CHEM SHOW. Additional information can be found at <http://northeastregional.aisce.org/>

### **About The CHEM SHOW**

Since 1915, the CHEM SHOW has been the CPI professional's single best resource for new products, new ideas and new services. It's a hands-on, interactive event that showcases a wide spectrum of emerging technologies. The unique industry forum creates a dynamic marketing environment unequaled by any other process industries event in North America. The CHEM SHOW is produced and managed by International Exposition Company (IEC), 15 Franklin Street, Westport, CT 06880; phone: (203) 221-9232; fax: (203) 221-9260; e-mail: [info@chemshow.com](mailto:info@chemshow.com); website: [www.chemshow.com](http://www.chemshow.com).
